Subject: fish consumption story

Mark, I'm working on a quick story about Washington not yet adopting new fish consumption rates, which as you know drive cleanup and permitting decisions.

Enviros, tribes, as you may be aware, are asking for EPA to step in and do the job for Ecology.

Judging from this letter -- http://www.ecy.wa.gov/programs/tcp/regs/2011-SMS/120120-fish-comments/EPA.pdf -- it looks like I need to talk to Janine Jennings or Mathew Szelag in the Office of Water and Watersheds. I'm being a good doobie and going through you -- think we could make this happen Monday? (Or this afternoon?) Sooner is better.

Thanks.

Robert McClure (206) 718-0340
